PROFESSIONAL SUMMARY

UI/UX Designer with 1+ years of professional experience designing user-centered digital products for **SaaS platforms, mobile applications, web applications, websites, and dashboards** in a fast-paced agency environment. Successfully delivered 15+ projects for 10+ clients while maintaining a 4.9/5 client satisfaction rating. Skilled in UX research, information architecture, user flows, wireframing, interactive prototyping, responsive UI design, and scalable design systems using Figma. Experienced in collaborating closely with product managers, developers, and cross-functional teams to transform business requirements into intuitive, accessible, and pixel-perfect interfaces. Passionate about creating seamless user experiences that enhance usability, drive user engagement, and support business growth through modern, developer-ready design solutions..

SKILLS

Design: UI Design, UX Design, Wireframing, Prototyping, User Flow Design, Mobile App UI, Dashboard Design, Design Systems, Usability & Accessibility (UX Heuristics), Visual Hierarchy, Design Handoff

Tools: Figma, FigJam, Canva

WORK EXPERIENCE

UI/UX Designer — Sparktech Agency

Aug 2025 – Present

- Designed UI/UX for multiple client projects spanning mobile apps, dashboards, landing pages, and ecommerce platforms.
- Created user flows, wireframes, high-fidelity UI, and interactive prototypes from concept through final delivery.
- Built scalable design systems and developer handoff-ready Figma files, reducing rework during implementation.
- Collaborated closely with developers to ensure pixel-perfect, accurate implementation of designs.
- Applied UX heuristics and visual hierarchy principles to improve usability and accessibility across projects.
- Consistently delivered high-quality design work under tight client deadlines.

PROJECTS

LetANest — Short-Term Lets & Festival Stays (Live Web Platform)

- Designed a full booking web platform for short-term rentals and festival stays, including landing page, search/discovery flow, and responsive mobile views.

Go Roqit — Job Matching Mobile App (Live on iOS)

- Designed a swipe-based job discovery and matching app connecting job seekers with opportunities, covering onboarding, swipe interactions, and application tracking.

Bean Fien — Coffee Ordering App & Web Platform

- Designed an online ordering experience with rewards program, store locator, order tracking, personalized offers, and digital gift cards across app and web.

Sporve — Trading Platform for Car Enthusiasts

- A sports booking platform that allows users to book venues, matches, coaching sessions, and sports events.

Ascela — Cosmetic Wellness & AI Facial App

- Designed a mobile app experience for AI-driven facial analysis and cosmetic wellness recommendations.

Protoyon App — Mobile App Redesign

- Redesigned navigation and information architecture for a government services access mobile application, improving visual hierarchy and simplifying user flows.

Amar Adalot — App Redesign

- Improved clarity, structure, and overall user journey for a legal services access platform, streamlining the end-to-end experience.

Gathering — Event Discovery & Social Networking App

- Designed an event discovery and social networking app experience for finding and connecting around events.

Photopia App — Figma UI Design Template Kit

- Connect with the world's best Photography & Videos

Grocery Mobile App

- Designed a mobile app experience for fast, simple grocery ordering.
